

June 16, 2009

At the June 15, 2009 Special BOD of directors meeting a 3rd class of membership has been created. We shall call this class of membership a Trap and Sporting Clays class. They are actually two separate yet parallel classes. They have been created to serve both the trap and sporting clays groups of shooters. We currently have our regular membership and a shooting membership class which allows individuals to shoot trap and sporting clays.

Our current fee structure for regular membership is \$3.50 for a round of trap (\$32.50 for 10 round punch card), skeet \$3.50, and sporting clays 50/\$11, 100/\$22. Regular members can participate in the Spring and Fall trap leagues and only pay \$5 for the banquet.

Shooting members pay \$4.50 for a round of trap and for sporting clays 50/\$14 and 100/\$28. Shooting members are allowed to participate in the Spring and Fall leagues and only pay the \$5 fee for the banquet. Shooting members can only use the facility when staff is on site

The "Trap" class of membership would cost \$20 annually. It would be structured so the "Trap" class can only shoot trap at the club during staffed hours and would pay the prevailing "Trap" class fee per round. At this meeting we determined that fee would be \$6/round of 25 targets. This membership class would be allowed to participant in the Spring and Fall trap leagues and pay the current banquet/prize fee for each respective league. We determined at this meeting the fee going forward will be \$15 per league for trap membership class. This shooting class would be issued a badge similar to the shooting membership badge but differing in color, say "Blue". The form for the shooter to fill out would be similar to the current shooting membership form. Shooter would be required to wear the badge at all times on the property. No badge, no shooting! This membership would be good for 1 year and on the badge would show both a start and ending date. This membership class is for an individual membership only, family and guest privileges do not apply. No offset of the paid fee is available to upgrade to either "Shooting Membership or Full Membership" programs. This program also allows spring and fall league shooters to shoot additional rounds other than just make up targets.

The "Sporting Clays" class of membership would cost \$20 annually. It would be structured so the "Sporting Clays" class can only shoot Sporting Clays at the club during staffed hours and would pay the prevailing "Sporting Clays" class rate for a round of either 50 or 100 targets. At this meeting we determined the fee would be \$20/50 targets and \$40/100 targets. This membership class would be allowed to participant in the Spring and Fall Sporting class leagues and pay the current banquet/prize fee for each respective league. We determined at this meeting the fee going forward will be \$22.50 per league for the Sporting Clays class. This shooting class would be issued a badge similar to the shooting membership badge but differing in color, say "Yellow". The form for the shooter to fill out would be similar to the current shooting membership form. Shooter would be required to wear the badge at all times on the property. No badge, no shooting! This membership would be good for 1 year and on the badge would show both a start and ending date. This membership class is for an individual membership only, family and guest privileges do not apply. No offset of the paid fee is available to upgrade to either "Shooting Membership or Full Membership" programs. This program also allows spring and fall league shooters to shoot additional rounds other than just make up targets.

Membership in one of these classes is mandatory and effective July 1, 2009.
